Elettrico Collection

Inspired by the beauty and philosophy of the natural electromagnetic spectrum as a starting point for each design, the Tapis Rouge Studio team looked to the four frequencies of light radiation and their respective wavelengths and photon energies translating them into a collection of 14 distinctive designs that blend fluid forms with striking color gradients.

The rugs are created, cut and washed by the atelier's Nepalese team with the use of only elementary tools, dyes are extracted from natural plants, flowers and trees. Only natural materials - wool and Chinese silk – are used, with all plastics and synthetics omitted.
