Modern Classics Collection

A contemporary take on traditional designs ranging from Persian damask to French floral ornaments, presented in current color schemes. The collection evokes a sense of antiquity and historical tradition. The Modern Classics rug's fine artisanship in the details makes it both familiar and unusual.

The rug instantly links to tradition, but interesting approaches in the technique of the rug, such as the varying heights, carving, working with the colors inside the design, and a combination of wool and silk, give the rug uniqueness.
