## Inganni Spaziali Collection

The “Inganni Spaziali” collection celebrates Italian design through a collaboration with a historic name in graphic design, Armando Milani. The four carpets that compose the group: Emozioni, Illusione, Groviglio, Connessioni, are the large-scale transposition of analog works from the 1970s and are aimed to pay homage not only to the aesthetics of those years but also, above all, to an era marked by great expressive freedom, the courage of experimentation and the empirical process of manipulating materials that allowed the creation of profoundly simple and evocative works.

To recreate the three-dimensionality of volumes and the light and dark of gradients, we combined wool and silk yarns in different and uneven concentrations on the rug's weave. The warm palette and homogeneous pile height evoke the surface of paper-cotton by returning a soft and tactile feeling.

### *Designed by Armando Milani*

*Armando Milani was born in Milan in 1940. He studied as a graphic designer with Albe Steiner. He opened his own studio in Milan in 1970 and in New York in 1980, after a collaboration with Massimo Vignelli. Member of the AGI (Alliance Graphique Internationale) since 1983, he is an expert of Corporate Identity, Editorial Design, Humanitarian and Ecological posters.*

*In 1995 he received a prize for his poster New York City Capital of the World. He published several books: “A double Life of 80 AGI designers” on creativity and sense of humour, “Fifty Poems of Ferlinghetti, Fifty Images of Milani”, “No Words Posters” speechless poster of hundred AGI members and “Ubuntu Collection Posters” for Nelson Mandela.*

*In 2002 Armando designed the poster “War/Peace ” for the United Nations and in 2022 the poster “European Future” for the European Parliament. In 2017 he received a gold medal for his humanitarian posters from the University Anahuac in Mexico City.*

## Planet Earth Collection

The pristine landscapes of Iceland, details of grounds and mosses observed in a journey from the macro to the micro, inspired the Planet Earth collection.

The sampling of organic textures and patterns, as preserved in their inviolability over the years, has made it possible to carefully reproduce the soft appearance, the complexity of nuances, and overlapping colors of natural surfaces, from moss in bloom to the luminous spectrum of glaciers, to streams of water, reminding us that everything has a time.

Planet Earth is a tribute to nature's strength and fragility; aerial views become dynamic and abstract motifs when viewed up close.

To best represent the variety of surfaces, we combined the light of silk with the softness of wool yarns in different compositions and pile heights.

## Abstraction III Collection

The collection alludes to the inner world of humans, the harmony of colors and shapes that form the thoughts giving voice to the imagination.

This new series of drawings enriches and continues the Abstraction collection, adding color tones, textures, and nuances, returned by the geometries and sometimes by the different heights of the pile.

Objects, furniture, and light, together with the carpet, become part of a coherent syntax in which the recombination of multiple visual and tactile elements creates harmony.

## Designed by Natalia Enze

*Natalia Enze is the founder of Enze Architects; she established her studio in Milan in 2016, today she works as a Creative Director and Product designer in the field of interior design and Exhibition, and as an Architect for residential, hospitality and commercial projects.*

*Natalia's work is internationally renewed and has been awarded as Winner of the German Design Award 2022, Archiproducts Design Awards in 2021 and 2020, NYCxDESIGN Awards 2021; Longlisted at the Archiproducts Design Awards 2022.*

## Eletrico Collection

Inspired by the beauty and philosophy of the natural electromagnetic spectrum as a starting point for each design, the Tapis Rouge Studio team looked to the four frequencies of light radiation and their respective wavelengths and photon energies translating them into a collection of 14 distinctive designs that blend fluid forms with striking color gradients.

The rugs are created, cut and washed by the atelier's Nepalese team with the use of only elementary tools, dyes are extracted from natural plants, flowers and trees. Only natural materials - wool and chinese silk - are used, with all plastics and synthetics omitted.

## Eletrico Collection

Inspired by the beauty and philosophy of the natural electromagnetic spectrum as a starting point for each design, the Tapis Rouge Studio team looked to the four frequencies of light radiation and their respective wavelengths and photon energies translating them into a collection of 14 distinctive designs that blend fluid forms with striking color gradients.

The rugs are created, cut and washed by the atelier's Nepalese team with the use of only elementary tools, dyes are extracted from natural plants, flowers and trees. Only natural materials - wool and chinese silk - are used, with all plastics and synthetics omitted.

## Tratto Collection

The word "tratto" in Italian describes the act, single or repeated, of producing lines, brush strokes while drawing or sketching or painting, but also engraving, carving and printing on different surfaces. The variety of applications and materials that can be involved in the process and the multitude of gestures can change the depths, thickness, brightness, frequency, energy and uniformity of the Tratto.

Tratto can sometimes be the origin of an illumination; the Collection pays homage to the gesture of drawing as the main tool for translating a vision into a visual.

In the Tratto Collection, the shape of the rug is sometimes curved and irregular to emphasize the dynamism of interiors and strengthen the connection between furniture.

### *Designed by Natalia Enze*

*Natalia Enze is the founder of Enze Architects; she established her studio in Milan in 2016, today she works as a Creative Director and Product designer in the field of interior design and Exhibition, and as an Architect for residential, hospitality and commercial projects.*

*Natalia's work is internationally renewed and has been awarded as Winner of the German Design Award 2022, Archiproducts Design Awards in 2021 and 2020, NYCxDESIGN Awards 2021; Longlisted at the Archiproducts Design Awards 2022.*

## Pattern Collection

The Pattern Collection was inspired by the development of architectural styles throughout history. Six unique styles, ranging from Roman to Stick, are represented in the collection, each exhibiting its own elegant and sometimes shocking characteristics. The collection offers various color options, allowing you to choose the perfect fit for your space.

Googie, the headliner design of the collection, embodies the super-aesthetic of 1950s and '60s American retro-futurism, a time of unparalleled innovation and technological advancement. This architectural style was the product of artists who sought to push the boundaries and create new, futuristic shapes. The collection and, in particular, the rug, perfectly captures the philosophy of Googie, with its geometric shapes, harmonious colors, and striking proportions.

## Pattern Collection

The Pattern Collection was inspired by the development of architectural styles throughout history. Six unique styles, ranging from Roman to Stick, are represented in the collection, each exhibiting its own elegant and sometimes shocking characteristics. The collection offers various color options, allowing you to choose the perfect fit for your space.

Googie, the headliner design of the collection, embodies the super-aesthetic of 1950s and '60s American retro-futurism, a time of unparalleled innovation and technological advancement. This architectural style was the product of artists who sought to push the boundaries and create new, futuristic shapes. The collection and, in particular, the rug, perfectly captures the philosophy of Googie, with its geometric shapes, harmonious colors, and striking proportions.

## Color Block Collection

The Color Block collection is a minimalist collection that serves as the foundation for the aesthetic vision of the Tapis Rouge brand. Calm and gentle tones quickly bring impact to your room for people who appreciate minimalism in any form. The smooth color scheme creates a crisp, sophisticated and refined look.

The Color-Block collection rugs are made from the finest quality material, 100% bamboo silk, with sandy tones of silk and a vast spectrum of nuances. Due to the varying heights of the weave row of the rug, certain types of monochromatic rugs have a welt effect. Hand-knotted rugs are woven in Nepal using the traditional unique techniques of the local artisans.

## Color Block Collection

The Color Block collection is a minimalist collection that serves as the foundation for the aesthetic vision of the Tapis Rouge brand. Calm and gentle tones quickly bring impact to your room for people who appreciate minimalism in any form. The smooth color scheme creates a crisp, sophisticated and refined look.

The Color-Block collection rugs are made from the finest quality material, 100% bamboo silk, with sandy tones of silk and a vast spectrum of nuances. Due to the varying heights of the weave row of the rug, certain types of monochromatic rugs have a welt effect. Hand-knotted rugs are woven in Nepal using the traditional unique techniques of the local artisans.

## Abstraction Collection

The collection is based on the ideas of abstractionism and the globalization of forms. Instead of transmitting a simplified spot of some form, various techniques of combining spots are used, finding and creating new “conversations” between form, geometry and color proportion.

At the heart of the concept is the creation of a carpet as an item that makes the interior more fascinating and relevant, generates a light and pleasant mood in the space, and establishes its own code for the interior with the carpet. A rug from the Abstraction collection is an excellent choice for a person seeking for individuality, shape along with novelty, and color in their home.

## *Designed by Natalia Enze*

## Abstraction Collection

The collection is based on the ideas of abstractionism and the globalization of forms. Instead of transmitting a simplified spot of some form, various techniques of combining spots are used, finding and creating new “conversations” between form, geometry and color proportion.

At the heart of the concept is the creation of a carpet as an item that makes the interior more fascinating and relevant, generates a light and pleasant mood in the space, and establishes its own code for the interior with the carpet. A rug from the Abstraction collection is an excellent choice for a person seeking for individuality, shape along with novelty, and color in their home.

## Frozen Collection

Images of a true Russian winter, icy air, crunching snow beneath your feet, magnificent ice on the river, shimmering in the sunlight, snowflakes melting in your palm, form the foundation of the collection.

The white snow, like a blank piece of paper, conveys peace and purity. Nature and time seem to stand still in anticipation of new life and transformation.

The world we live in has changed dramatically in recent decades. Digital technology has provided convenience and benefits, but it has also replaced basic and vital values like living conversation and connection with nature. The Soviet-era buildings and artworks that surround us now are trapped in time, transporting us emotionally to a society in which communion with nature was essential.

## Ambiance Collection

The Ambiance Collection was born from a travel journal; Notes of textures, colors and materials, of which the imprint in memory slowly fades, synthesizes and crystallizes into new forms.

These hand-knotted rugs are made from high-quality silk and New Zealand wool, and feature graphic lines and geometric patterns playing on different levels of contrast to add a dynamic touch.

The collection is available in a range of warm, neutral tones, including yellow, beige, and blue, making it easy to find the perfect match for every interior design project.

## Ambiance Collection

The Ambiance Collection was born from a travel journal; Notes of textures, colors and materials, of which the imprint in memory slowly fades, synthesizes and crystallizes into new forms.

These hand-knotted rugs are made from high-quality silk and New Zealand wool, and feature graphic lines and geometric patterns playing on different levels of contrast to add a dynamic touch.

The collection is available in a range of warm, neutral tones, including yellow, beige, and blue, making it easy to find the perfect match for every interior design project.

## ECO Collection

The islands' and archipelagos' different and bizarre shapes inspire the ECO collection. Created through geological events of different origins, modeled over hundreds of years, the islands are the paradigm of a certain idea of light-heartedness because they are far from everything, but they are also an example of the complexity of nature.

In the designs of the Eco collection, the islands appear summarized in essential shapes made of curved outlines or with few edges. At the basis of the concept, there is an exercise in reading complexity, an intent, albeit playful, to measure everything, even the extremely large, and to be able to translate it into simple and recognizable forms which still retain the image of their archetype.

Per Sempre Collection

The Per Sempre collection draws inspiration from intricate historical embroidery patterns and traditional craftsmanship that, translated into a contemporary visual language, reflect Tapis Rouge's search for perfection and the spirit of innovation by playing with solids and voids.

The collection's primary color palette is expressive, deep, and future-muted shades of autumn and blue mist.

## Monumenti Collection

The “Classical Mythology” collection of rugs brings the timeless beauty of Apollo and Aphrodite into your home. Inspired by the Greek gods of art and beauty, these rugs are a celebration of the classical ideals of harmony and grace. “The transposition of Apollo and Aphrodite on the soft surface of a carpet wants to become the symbol of an eternal charm that takes inspiration from the human being to turn into divinity,” explains Fabio Novembre, the collection’s designer.

*“For us architects, drawings are like words for writers. We get to communicate the worlds through these lines, which to most people seem mysterious.”*

*“The level of abstraction of architectural drawings is perfect for turning them into a carpet. And I have chosen three architectural drawings that are absolutely iconic, the strongest for Italian culture: Castel del Monte, Anfiteatro Romano (the Colosseum), and Reggia di Caserta (the royal palace in Caserta).”*

Fabio Novembre.

## Designed by Studio Novembre

*Under the leadership of Fabio Novembre, the Studio has been working in the field of architecture and interior design for 30 years. In his work designer demonstrates his ability to reinterpret the concept of space to create settings that are enchanting, giving life to embracing new forms. Thanks to the founder’s visionary approach and highly recognizable sign, Novembre Studio’s projects are published all over the world.*

## Chinoiserie Collection

Chinoiserie collection is made by a series of intricate and elegant rugs inspired by the rich cultural heritage of China. Drawing on ancient myths and legends, the collection presents a range of stunning designs that are both steeped in symbolism and beautifully crafted.

We have expertly restored illustrations from the late Ming and early Qing dynasties, and has brought these designs to life in a variety of ways. Some rugs faithfully reproduce the original artwork, while others feature modern color schemes or have been reinterpreted into entirely new compositions.

Each piece in the collection is a masterful fusion of complex patterns and simple geometric ornaments, creating a harmonious and balanced aesthetic. The materials used are of the highest quality, including 100% pure silk and a blend of Chinese silk and New Zealand wool.

## Himalaya Collection

The Himalaya collection was inspired by the surface of the rocky mountains, the crumbly texture and the complex palette that develops over multiple natural layers. Each rug is handwoven by skilled artisans using the finest materials, resulting in unique and durable pieces.

The swirling clouds hang low over the head of the night traveler. The darkness is absolute; no star can pierce it with its light. Nevertheless, the silvery light of the moon, the queen of the night, suddenly illuminates the celestial movement, the whirlwinds of air rushing through the air. The light has reached the ground, and the traveler once again discerns his winding path somewhere deep in the Himalayan mountains. In creating the patterns, we considered the material's texture, the properties of the pile, and the loop' types resulting in a design based on new languages and trends.

## Archive Collection

This collection, consisting of a restoration from vintage designs of historic Art Deco rugs, emerged from a collaboration for a private design project. Using Art Deco elements to evoke a sense of a lost era, the rugs are made of wool and silk.

Photographs of the fabric print were used as a basis to create an Art Deco rug for the Archive collection. Antique furniture complemented the details of the rug designs.

Art deco rugs have become our pride. The rug recipe has enriched our design bank with interesting solutions in rug design. Wool and silk always create a masterpiece effect, especially when we do deep shades combined with patterns, borders and accent details in the rug design.

## Modern Classics Collection

A contemporary take on traditional designs ranging from Persian damask to French floral ornaments, presented in current color schemes. The collection evokes a sense of antiquity and historical tradition. The Modern Classics rug's fine artisanship in the details makes it both familiar and unusual.

The rug instantly links to tradition, but interesting approaches in the technique of the rug, such as the varying heights, carving, working with the colors inside the design, and a combination of wool and silk, give the rug uniqueness.
