Tapis Rouge Milano represents the contemporary expression and the modern evolution of handcrafted rugs production, blending traditional techniques with creative research and a deep appreciation for heritage.

Defined by its eclecticism, Tapis Rouge embodies a creative vision shaped by a multitude of influences, where intricate patterns, refined color combinations, materiality, and experimentation take center stage.

Bridging past motifs with present-day geometries, Tapis Rouge rugs merge design elements with artistic patterns, resulting in pieces of exceptional aesthetic sensitivity.

Each rug becomes a canvas enriched with textures, depths, colors, and expertly handwoven fibers. More than just a furnishing element, the rug transforms into an expression of both personal identity and the space it inhabits.

About

Founded in 2004, Tapis Rouge Milano is the modern and international vision of fine rug making of the Meilech family, which has been creating and curating high-end rugs for generations through continuous research and innovation. Under the artistic direction of architect and designer Natalia Enze, the brand embraces a multifaceted and coherent approach, allowing rugs to express their full artistic and personal power in dialogue with architecture and surrounding spaces.

Persian traditions merge with the artisanal knotting techniques of Nepal's indigenous communities to create exclusive pieces. In this land, weaving is a deeply rooted cultural expression, emphasizing the use of natural, eco-sustainable raw materials. The company's identity seamlessly aligns with its decision to establish its base in Milan—the global capital of design—bringing an international perspective to its craftsmanship.

Showroom

Tapis Rouge Showroom Milan Brera.
via Borgonuovo 26, entrance from Via dell'Annunciata.

Artisanal mastery and a refined creative vision are the pillars of Tapis Rouge Milano, a company that sees history and culture as essential elements of its journey. Choosing Milan as its headquarters, the brand engages in dialogue with the world of design and architecture. Nestled among the architectural beauty of Brera—Milan's prestigious district for

international interior design flagships—Tapis Rouge opens its showroom at Via Borgonuovo 26. More than just an exhibition space, the showroom is a gallery of expression, a seamless interpretation of its design language, and a meeting point for designers and the wider public.

Production

Nepal, the birthplace of rug weaving for millennia, a land of generous nature where the finest animal and plant fibers are selected to launch the **production cycle** of Tapis Rouge, through carding and spinning.

Wool, silk, mohair, alpaca, hemp, and bamboo are hand-dyed using sustainable methods that respect traditional techniques. The fibers are dyed in a wide and sophisticated array of colors, where variations, gradations, and hues allow for complete customization.

The handmade process: **knotting, loom weaving, carving, and tufting** are the main techniques employed by local artisan communities.

Tapis Rouge preserves this legacy, ensuring that the ancient art of knotting is passed down through generations. Knot leveling and steaming are additional manual steps that enrich the craft with tradition, ensuring its perfection and adherence to the original design.

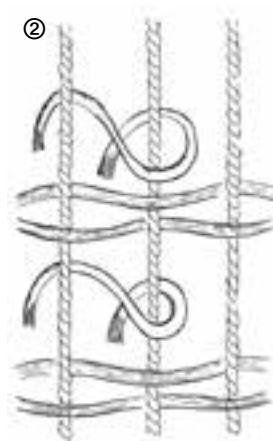

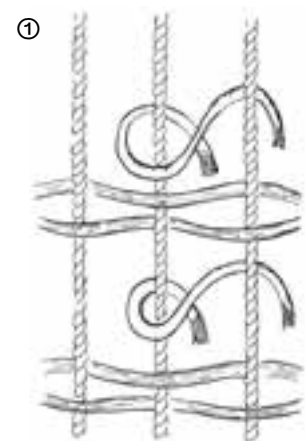

Tapis Rouge, at every stage of the **production cycle**, interprets trends, innovations, and the needs of architecture and interior design.

Rugs which are *delicately born, woven by hand, carrying fragments* of history, today's creative thoughts, and the inspirations of the spaces they will inhabit tomorrow.

We weave together stories, traditions, research, and innovations. Hand-knotting is an **ancient art, carrying a rich history** and profound meaning that is passed down through the **production cycle** of each rug.

Knotting, weaving, and carving are among the main techniques used by our artisans during the creation phases of Tapis Rouge products.

- ① Asymmetrical knots, left opening
- ② Asymmetrical knots, right opening
- ③ Symmetrical Knots

OUR PRODUCTION PROCESS:

CONCEPT

We are inspired by beauty in its broadest sense: from nature, architectural and artistic masterpieces, and archives of fabrics and tapestries from ancient cultures.

Every gesture combines the identity of the past with our vision of the future.

SAMPLE DESIGN

From gradients to the finest lines to different pile heights, each new design is a unique creation. Sampling allows us to capture the details of the piece before proceeding with its large-scale production.

PRODUCTION PROCESS

Our ethical commitment is deeply rooted in preserving traditional, authentic, and sustainable craftsmanship processes, significantly reducing environmental impact—both in the sourcing and processing of yarns and in the dyeing phase.

YARN KNOTTING

Wool, silk, bamboo, or yarn blends are woven to create robust textures that bring our rugs to life.

Each knot carries the heritage and memory of multiple cultures and techniques, bearing witness to weaving traditions. The production time, a result of meticulous dedication and manual labor, is determined by the knot density of the rug, which also reflects its complexity.

More detailed designs often require a higher knot density per unit area of the rug; a higher density results in a longer production time but ensures a precious and exceptionally high-quality outcome.

100 KNOTS/INCH²

A high knot density allows for a greater level of detail in the design.

Different
pile height

PRE-WASHING

After the knotting process, the rug undergoes washing with specialized equipment and is then laid out to dry.

KNOT LEVELING AND IRONING

To ensure that the pattern lines remain true to the original design, a manual alignment and ironing phase of the knots is required— a step that demands absolute precision and is carried out by highly skilled artisans.

CARVING AND FINISHING

Two of the most important and exciting stages in rug making, where the design truly comes to life, revealing different volumes, shadows, and pile heights: carving and shearing.

Materials

Our rugs are made with yarns derived from nature, from wool to silk, from mohair to alpaca, from bamboo silk to hemp. The only exception is the Econyl, a 100% recycled PET chosen for the outdoor rugs: **eco-friendly** and **hypoallergenic**, this material is made from *nylon recovered* from the oceans and regenerated.

Each yarn undergoes a careful selection process and is skillfully woven using traditional techniques by our Nepali artisans. Thanks to their craftsmanship, the rich palette of over **1200 colors**, intricate knot patterns, and extraordinary textures, each rug celebrates the magnificence of **natural materials**, showcasing their timeless beauty.

Design Service

We create handmade rugs for every type of interior, style, and desire.

Each project is rooted in cultural reflections, transforming fine yarns, intricate knotting, and refined edging into a harmonious blend of colors, patterns, and designs—tailored to the desires of an audience increasingly drawn to exclusivity. A true Atelier, where “made-to-measure” begins

with an initial sketch or inspiration reference and takes shape through meticulous attention to detail, form, color, and dimensions. Supported by an expert in-house design and technical team, Tapis Rouge offers stylistic solutions for private clients, luxury hospitality, yachts, and high-end apartment buildings worldwide.

TAPIS ROUGE DESIGN SERVICE

Customization is at the core of Tapis Rouge Milano's identity. Beyond creating tailor-made pieces for interior design projects, the brand redefines the concept of bespoke design by crafting unique, one-of-a-kind rugs in collaboration with artists, graphic designers, and architects.

These partnerships highlight Tapis Rouge's exceptional craftsmanship, bringing to life the complexity and quality of handmade rugs.

PHASES:

- Design (study of shape, design and dimensions)
- Determination of the optimal technique
- Choice of materials
- Choice of finish
- Quotation
- Production time
- Control of production steps and updates to the customer
- Quality control
- Shipping

The **"Landscape"** collection is a captivating exploration of natural and rural landscapes, reinterpreted through simplified graphic elements. Each piece reflects human intervention, shaping the identity of landscapes over time. Inspired by travel notes and aerial views of Southeast Asia's cultivated fields, the collection uses **chromatic contrasts, defined volumes, and irregular shapes** to explore the relationship between man and nature. These rugs evoke traditional landscapes on city suburbs, contrasting modern life's frenetic pace with the contemplative rhythm of ancient places. Irregular edges make each rug unique, integrating seamlessly with furniture to create a harmonious ecosystem.

The **"Typo"** collection, inspired by **ARMIN HOFMANN'S** typographic experiments, transforms graphic elements into three-dimensional rugs. Starting from a grid of circles and points, designs evolve through tangent lines, alternating between filled and empty spaces. This method, rooted in Hofmann's philosophy, emphasizes the importance of dots and lines in structure and construction. The rugs offer varying pile heights and gradients, created through clever line thinning and form experimentation. Just as in Hoffmann's design process, **the "Typo" series explores contrasts and composition, bringing graphic images to life through endless variations in form and volume.**

Both collections blend tradition and innovation, combining art, design, and functionality in contemporary decorative pieces.

INGANNI SPAZIALI

collection

The **INGANNI SPAZIALI** collection celebrates *Italian design* through a collaboration with a historic name in graphic design, **ARMANDO MILANI**. The four carpets that compose the group: Emozioni, Illusione, Groviglio, Connessioni, are the large-scale transposition of analog works from the 1970s and are aimed to pay homage not only to the *aesthetics* of those years but also, above all, to an era marked by great expressive freedom, the courage of experimentation and the empirical process of manipulating materials that allowed the creation of profoundly simple and evocative works.

To recreate the *three-dimensionality* of volumes and the light and dark of gradients, we combined wool and silk yarns in different and uneven concentrations on the rug's weave. The warm palette and homogeneous pile height evoke the surface of paper-cotton by returning a soft and tactile feeling.

TRATTO
collection

The word ***“tratto”*** in Italian describes the act, single or repeated, of producing lines, brush strokes while drawing or sketching or painting, but also engraving, carving and printing on ***different surfaces***. The variety of applications and materials that can be involved in the process and the multitude of gestures can change ***thickness, brightness, frequency, energy and uniformity*** of TRATTO.

TRATTO can sometimes be the ***origin of illumination***; the Collection pays homage to the gesture of drawing as the main tool for ***translating a vision into a visual***.

In TRATTO Collection, the shape of the rug is sometimes ***curved and irregular*** to emphasize the ***dynamism of interiors*** and strengthen the connection between pieces of furniture.

ELETTRICO
collection

Inspired by the *beauty and philosophy* of the natural *electromagnetic spectrum* as a starting point for each design, the TAPIS ROUGE Studio team looked to the four frequencies of *light radiation* and their respective wavelengths and photon energies translating them into a collection of **14 distinctive designs** that blend fluid forms with *striking color gradients*.

The rugs are created, cut and washed by our Nepalese team with the use of only elementary tools; dyes are extracted from *natural plants, flowers and trees*. Only *natural materials* — New Zealand wool and Chinese silk — are used, with all plastics and synthetics omitted.

ABSTRACTION

collection

The collection is based on the ideas of ***abstractionism*** and the ***globalization of forms***. Instead of transmitting a simplified spot of some forms, various techniques of combining spots are used, finding new «conversations» between different ***form, geometry and color***.

At the heart of the concept is the creation of a carpet as an item that makes the interior more fascinating and relevant, ***generates a light and pleasant mood*** in the space, and establishes its own code for the interior with the carpet. A rug from the **ABSTRACTION** collection is an ***excellent choice*** for a person seeking for ***individuality***, shape along with ***novelty***, and color in their home.

ABSTRACTION III collection. Abstraction III.I rug.

ABSTRACTION III

collection

ABSTRACTION III alludes to the inner world of humans, the *harmony* of colors and shapes that form the thoughts giving *voice to the imagination*.

This new series of drawings enriches and continues the ABSTRACTION collection, adding *color tones, textures, and nuances*, returned by the *geometries* and sometimes by the different heights of the pile.

Objects, furniture, and light, together with the carpet, all these become a part of *coherent syntax* in which the recombination of *multiple visual* and *tactile elements* creates harmony.

AMBIANCE

collection

AMBIANCE Collection was born from a travel journal; notes of the *textures and colors*, of which the imprint in memory slowly fades, synthesizes and crystallizes into *new forms*.

These hand-knotted rugs are made from *high-quality* silk and New Zealand wool, and feature *graphic lines* and *geometric patterns* playing on different levels of contrast to add a *dynamic touch*.

The collection is available in a range of warm, neutral tones, including yellow, beige, and blue, making it easy to find the *perfect match* for every interior design project.

ECO collection

The islands' and archipelagos' *different and bizarre shapes* inspire the **ECO collection**. Created through geological events of different origins, modeled over hundreds of years, the islands are the paradigm of a certain idea of light-heartedness because they are far from everything, but they are also an example of the *complexity of nature*.

In the designs of the ECO collection, the islands appear in *essential shapes* made of *curved outlines* or with few edges. At the basis of the concept, there is an exercise in reading complexity, an intent, albeit playful, to measure everything, even the extremely large, and to be able to translate into *simple and recognizable forms* which still retain the image of their archetype.

PATTERN

collection

PATTERN Collection was inspired by the development of *architectural styles* throughout history. Six unique styles, ranging from Roman to Stick, are represented in the collection, each exhibiting its own *elegant* and sometimes even shocking characteristics. PATTERN offers various color options, allowing you to choose the *perfect fit for your space*.

Googie, the headliner design of the collection, embodies the super-aesthetic of 1950s and '60s *American retro-futurism*, an artistic and social movement of unparalleled innovation and the technological advancement. This architectural style was the product of artists who sought to push the boundaries and create new, *futuristic shapes*. The whole collection and, in particular, the rug, perfectly captures the philosophy of Googie, with its *geometric shapes, harmonious colors*, and *striking proportions*.

SINFONIA
collection

SINFONIA Collection is inspired by music; it decodes the *perception of sound* in the visual representation of the *softness of form* and the delicate nuances of the threads of the rug texture.

The *different compositions* of the yarns contain wool with luminous silk accents; the light flows through the different *patterns*, becoming *dynamic* like the echo of the notes suspended in the air.

MAISON SIX

collection

In recent years, the home has increasingly become a living place. The way of designing the home of the future has changed. Daily living centers more on **comfort, well-being**, the link between **indoor and outdoor space**, and more **sustainable**, durable, and **healthy choices**.

The ideal home inspires **Maison Six**, a safe place where answers to design needs coexist with ethically sourced, **natural materials**. The intricate designs that featuring complex patterns and simple geometric ornaments, create the **harmonious and balanced environment**, perfect for any **modern home** and every human, even the youngest.

PER SEMPRE

collection

The **PER SEMPRE** collection draws inspiration from intricate *historical embroidery patterns* and *traditional craftsmanship* that, translated into a contemporary visual language, reflect Tapis Rouge's search for perfection and the spirit of innovation by playing with solids and voids.

The collection's primary color palette is *expressive, deep, and future-muted shades* of autumn and blue mist.

KOI POND

collection

Japanese Watercolor paintings inspire the **KOI POND** capsule collection. The rug's color scheme preserves the color transparency intrinsic to watercolor paintings, creating a ***soft and ethereal effect***. The curved lines and color spots add an element of movement, giving the ***impression of persistent motion***.

These rugs are hand-knotted from ***New Zealand wool*** and ***Chinese silk***, with 100 knots per inch². The challenge was to convey the watercolor technique in the rug, which is managed using a ***unique thread mix***. Each knot in the rug is made up of a track composed of three bundles of nine threads. These carpets incorporate so many colors that choosing yarns took several days.

CHINOISERIE

collection

The **CHINOISERIE** collection is made by a series of intricate and elegant rugs inspired by the rich **cultural heritage of China**. Drawn on the base of **ancient myths and legends**, the collection presents a range of stunning designs steeped in symbolism and beautifully crafted.

We have expertly restored illustrations from the late Ming and early Qing dynasties and have brought them to life in various ways. Some rugs faithfully reproduce the **original artwork**, while others feature modern color schemes or have been reinterpreted into entirely new compositions.

Each piece in Chinoiserie collection is a **masterful fusion** of complex patterns and simple geometric ornaments; creating a **harmonious and balanced aesthetic** in the rugs. The materials used are of the **highest quality**: 100% pure Chinese silk and New Zealand wool.

LA SCALA

collection

The **LA SCALA** collection has been originally inspired by **Mike Shilov's** admiration for Italian architecture, particularly the beauty and **variety of staircases** as architectural elements.

La Scala collection is the result of research into the different functions of this element, from ancient times contemporary styles. The staircase, over the centuries, has served not only as an element of junction between different levels of a building; it has had celebratory, scenic, and monumental functions, as in neoclassical and baroque architecture; it has served and serves to ascend and descend in the space of elsewhere.

The design, which in the collection reduces the element to its essentiality made up of the lines, gravitates to a metaphysical space in the shades of different terrestrial and non-terrestrial landscapes.

HIMALAYA

collection

The **HIMALAYA** collection was inspired by the surface of the rocky *mountains, crumbly texture* and complex palette that develops over multiple natural layers. Each rug is handwoven by skilled artisans using the finest materials, resulting in *unique and durable pieces*.

The swirling clouds hang low over the head of the night traveler. The darkness is absolute; no star can pierce it with its light. Nevertheless, the silvery light of the moon, the queen of the night, suddenly illuminates the celestial movement, the whirlwinds of air rushing through the air. The light has reached the ground, and the traveler once again discerns his winding path somewhere deep in the *Himalayan mountains*. In creating the patterns, we considered the material's texture, the properties of the pile, and the loop types resulting in a design based on new languages and trends.

LUDICO KIDS

collection

LUDICO is our collection dedicated to the most fun and playful spaces in the home, where imagination has no boundaries. The rugs in the Kids collection incorporate ***vibrant color research and a selection of recycled, soft, and hypoallergenic fibers*** to enrich children's healthy environments with aesthetic sense and well-being.

Even the details are designed to ignite creativity and wonder, encouraging young ones' curiosity and joy for what surrounds them while inviting adults to transform their homes into places of endless exploration.

Ludico is a collection of designs to share, where the rug is the stage for moments to be spent together at all ages.

MODERN CLASSICS

collection

A *contemporary approach* to historical textiles and archive materials, ranging from the Persian Damask to French *floral ornaments*, presented in current color schemes. The collection evokes a sense of antiquity and cultural inheritance. **MODERN CLASSICS** Collection's rugs fine artisanship in the details makes it both familiar and unusual.

The rug instantly links to tradition, but interesting approaches in the technique of the rug, such as the varying heights, carving, working with the colors inside the design, and a combination of wool and silk, give the rug *uniqueness*.

MONUMENTI

collection

The **MONUMENTI** collection of Italianate rugs pays homage to the ancient architecture that has shaped our past. With its visual abstractions of forms and presence of yellowish color, these rugs are a reminder of the importance of preserving precious memories. **Fabio Novembre** as the designer of Monumenti says, «*A form of respect for our own roots are transformed into soft surfaces inside our homes, on which one takes new steps between past and future.*»

MITI collection. Apollo rug.

MITI
collection

The **MITI** collection brings the timeless beauty of Apollo and Aphrodite into your home. Inspired by the Greek Gods of art and beauty, these rugs are a celebration of the classical ideals of harmony and grace.

«The transposition of Apollo and Aphrodite on the soft surface of a carpet wants to become the symbol of an eternal charm that takes inspiration from the human being to turn into divinity», — explains Fabio Novembre, the collection's designer.

«For us architects, drawings are like words for writers. We get to communicate the worlds through these lines, which to most people seem mysterious. The level of abstraction of architectural drawings is perfect for turning them into a carpet. And I have chosen three architectural drawings that are absolutely iconic, the strongest for Italian cultural heritage: Castel del Monte, Anfiteatro Romano (the Colosseum), Reggia di Caserta (the royal palace in Caserta)», — **Fabio Novembre**.

ARCHIVE collection

ARCHIVE Collection, consisting of a restoration from vintage designs of historic Art Deco rugs, emerged from a collaboration for a private design project. Using Art Deco elements to evoke a sense of a lost era, the rugs are made of wool and silk. Photographs of the fabric print were used as a basis to create an **Art Deco** rug for the Archive collection. Antique furniture complemented the details of the rug designs.

Art deco rugs have become our pride. The rug recipe has enriched our design bank with **interesting solutions** in rug design. Wool and silk always create a **masterpiece effect**, especially when we do deep shades combined with **accent details** and borders in the rug design.

COLOR BLOCK

collection

The **COLOR BLOCK** collection is a *minimalist collection* that serves as the foundation for the aesthetic vision of the Tapis Rouge brand. ***Calm and gentle tones*** quickly bring impact to your room for people who appreciate minimalism in any form. The ***smooth color scheme*** creates a crisp, sophisticated and refined look.

Color Block collection rugs are made from the finest quality material, 100% bamboo silk, with sandy tones of silk and a vast spectrum of nuances. Due to the varying heights of the weave row of the rug, certain types of ***monochromatic rugs*** have a welt effect. Hand-loomed rugs are woven in Nepal using the traditional unique techniques of the local artisans.

Goethe, Circle of colors to symbolize the human spirit and soul, 1809.

The Tapis Rouge Milan's color palette was developed based on the analysis, studies and recommendations of architects and designers.

The concept of the palette originated from the idea of integrating interior and carpet colors through common color codes used by interior design professionals and private clients.

The Tapis Rouge Milan team paid particular attention to the choice of colors and shades. The range includes complex and intense colors that soothe rather than excite, evoking complex and meaningful emotions. These colors require long perception and satisfy the need for refined sensations. We find these shades in the

textiles of classical European costumes, in the interiors of the residences of urban intellectuals, in 18th- and 19th-century painting, and in contemporary graphic design and architecture.

In search of a theoretical framework, the Tapis Rouge team was inspired by Johann Wolfgang von Goethe's essay «Theory of Colours» (German: «Zur Farbenlehre»), which examines his views on the nature of color and aspects of color perception. Based on Isaac Newton's observations, Goethe's work is a reference point for the team's research, as he explores how color is perceived under different conditions, focusing less on the analysis of the phenomenon of color and more on the specifics of its perception.

PLAIN LUXE

collection

PLAIN LUXE Rugs by Tapis Rouge is a collection of hand-loomed rugs woven in a single color and composed of 100 percent pure fiber. After a careful study of color, we have outlined eight timeless hues, each in four variations of intensity: from the lightest to the darkest shade, the hues are suitable to create the right match with any style or interior while maintaining sobriety and elegance.

The simplicity ennobled by the use of high-quality fibers and careful handwork makes this solution suitable for residential, hospitality, and retail projects, with a choice of 6 different types of materials depending on the desired aesthetic and textural result: Bamboo Silk and Silk for a luminous effect, NZ wool for a matte result; Mohair, Cashmere, and Alpaca for incredibly soft surfaces, in pile heights ranging from 12 to 25mm.

The extreme quality of the fibers makes this a durable product, suitable for contract and domestic use, choosing from 3 standard sizes depending on the interior or customization in multiple and infinite shapes.

VAL CAMONICA OUTDOOR

collection

The **VAL CAMONICA OUTDOOR** collection takes its cue from a visual collection of petroglyphs found in this mountain area of ***northern Italy*** and it's characterized by repeated patterns of engraved signs, where the different depths of the pile also give the design rhythm. The fibers used are **100% recycled PET**, a material extremely resistant to external agents like sun or rain, antistatic, high-tech, and durable. All these characteristics make these rugs perfect for the summer and any season's outdoor ***decoration and sustainability***.
